Please allow me to introduce myself and my Company. I am Mike Nelson. My wife and I run Carried Away, a company that offers affordable Coffins and Caskets directly to the public.

Anybody who believes that coffins are too expensive in New Zealand, can check out our range and prices on our website at carriedaway.kiwi.nz. Prepare to be pleasantly surprised.

I have supplied a couple of Menz Sheds with Handles and Coffin lid screws over the last couple of years and would like to take this opportunity to extend this offer to all of the sheds in New Zealand.

I am aware that not all Sheds get involved in coffin making, so for those of you who don't, and don't intend to, you can probably stop reading now. However, for the rest of you, please read on.

We are able to offer a continuity of supply of coffin handles and lid screws at competitive prices to any Menz shed who is interested. In addition, we have recently changed our supplier in China and are seeking to move the old supplier's products by offering them at a significant discount, especially those products that will not be retained.

The products that we are retaining and that will be available in the future, are Modern Handles, in Silver and Gold and Lid Screw and Plate designs 1 and 3, in Silver and Gold.

Photos of the items may be viewed on our website, www.carriedaway.kiwi.nz. Look for the item names used in this letter under the Hardware Range tab on the line below the header.

Handles are sold as each and screws and plates are sold as a pair.
