Our Menzshed was established after an inaugural meeting of like minded men in December 2012. A steering committee was formed, an Incorporated Charitable Trust negotiated and Rules/Constitution prepared. To date (7/21) we have a membership of 72, increased from the original 12.

We leased a small building from the Pauanui Sports & Recreation Club (PSRC) in Sheppard Avenue, Pauanui. A considerable amount of small plant and tools have been donated by widows local residents alike who no longer have regular use of such 'handyman' equipment. Such items varied in condition but helped the shed in those early years.

We were able to negotiate with the PSRC a lease of a larger building a couple of years ago which was necessary for our development and membership growth. We have almost outgrown this already. Approximately 90% of work is carried out for the community in the local area. In 2020 we completely restored the local Mini Putt, fully repaired the Primary School playground buildings, built a Pontoon adjacent to the local jetty for swimmers & created a Seating/barbecue area on the foreshore.

Importantly we do not undertake projects or compete with local businesses or tradespeople. Weekly operations, Tuesdays, 9.00am to 12.00pm. Sheddies from throughout the Menzshed Movement are always welcome, we encourage visiting from fellow Sheddies as well as prospective members.

**We're a friendly lot.**
